

From the first task

1. I want a job list like here: <https://abhealthjobs.com/job-list-4/>. Please see the video: <https://imgur.com/qvRS5lb>
2. I want the employer dashboard to have a number of application cards like in the image. Let's say 3 candidates applied for the employer's job. Let the number of applicants be 3 so that they will know that someone has applied for their job. <https://imgur.com/a/IL9aBZl>
3. CV Search: Available CV Quota is not updating - this is a bug from the last job you did.
4. I don't want the **free job package** to be bought twice within a month. The free package should be for 30 days. If they run out of quota for that month, I want to restrict access so they can get the already activated free version again for that same month, unless they purchase a paid package.
5. I activated the trial package, which gives me 3 resume views. But when I clicked on the search resume, it wouldn't let me view any of them. It redirects to the package section even when I have activated the trial package, which should allow me to view 3 resumes.

To fix and update from the previous task

1. Please, for the subscription job package, I want it to be a recurring payment, which is why it is a subscription. I want you to add a box in the **admin package setting** for the unlimited option. That means an employer who chose a subscription can post unlimited jobs for x months, depending on the package they paid for.

Packages and Subscriptions

Simple pricing. No surprise fees. Advanced features.

The screenshot shows the 'Packages' tab selected. Below the header, there are two green checkmarks indicating features: 'Easy and instant posting process - your jobs available online in no time' and 'Job posting credits that you purchase will never expire'. The main section is titled 'Select your package'. Below this, there is a dropdown menu for 'Canada' with a question mark icon. Three subscription packages are listed, each with a radio button, a 'Buy now' button, and a price. The packages are: '99999 months unlimited job postings' for CAD 700.00, '99999 months unlimited job postings' for CAD 1,990.00, and '99999 months unlimited job postings' for CAD 2,590.00. A red callout box with arrows pointing to the 'Unlimited job postings' label and the 'Buy now' button contains the text: 'For subscriptions tab, I want these to show number of months, e.g. 3 months, 6 months, and 12 months. Not number of jobs, I want number of months.'

2. This is still from above. You did not fix it to the packages section. I don't want the **free job package** to be bought twice within a month. The free package should be for 30 days. If they run out of quota for that month, I want to restrict access so they can get the already activated free version again for that same month, unless they purchase a paid

package.

Select your package

Canada  This is the free package, I want to restrict this to once per month. Canada 

☒ 3 job postings	    	CAD 0.00
☐ 5 job postings	    	CAD 50.00
☐ 25 job postings	    	CAD 200.00
☐ 50 job postings	     50% rebate	CAD 250.00

3. I want to change the wording for the subscription tap like int the image. Currently, the packages and subscriptions tab shared the same text. I want a separate one for subscriptions tab that is different from the one in packages tab.

Packages and Subscriptions

Simple pricing. No surprise fees. Advanced features.

Packages Subscriptions

- ✓ Easy and instant posting process – your jobs available online in no time
- ✓ Job posting credits that you purchase will never expire. Buy now and post whenever.

This is the same as packages tab. I want a unique one for subscription tap.

Select your package

Canada  Canada 

☒ 10 months unlimited job postings	     Unlimited job postings	CAD 700.00
☐ 9999 months unlimited job postings	     Unlimited job postings	CAD 1,990.00
☐ 9999 months unlimited job postings	     Unlimited job postings	CAD 2,590.00

4. I want to remove featured ribbon on candidate resume. It is too bis and covering some details.

The screenshot shows the 'Find Candidates' section of a web application. It includes a search bar with the placeholder text 'Enter Skills or job seeker details' and a dropdown menu for 'Select Functional Area'. Below the search bar, there are filters for 'By Country' (Pakistan, United States of America, India) and 'By State' (Islamabad - Federal Capital Area, California, Washington). The main content area displays a list of candidates, each with a 'FEATURED' ribbon. A purple callout box with an arrow points to the ribbons, stating: 'Please remove this ribbons. They are big and covering the details.' The candidates listed are:

- 1. **FEATURED** [Name] - Vapi, Gujarat (Experienced Professional) [View all details]
- 6. **FEATURED** [Name] - Albertville, Alabama (Department Head) [View all details]
- 1. **FEATURED** [Name] - Bainbridge Island, Washington (Experienced Professional) [View all details]
- 1. **FEATURED** [Name] - Bainbridge Island, Washington (at Me) [View all details]

The candidate details for the last entry are partially visible: 'Hello! I'm Sharjeel, A Passionate UI/UX Designer and Frontend Developer with a strong technical background. I bring innovation and attention to detail to create visually stunning, user-centric designs. Proactive and disciplined, I excel in ensuring maximum accessibility and elevating customer experiences throughout the development process. Let's

5. I activated the trial package, which gives me 3 resume views. But when I clicked on the search resume, it wouldn't let me view any of them. It redirects to the package section even when I have activated the trial package, which should allow me to view 3 resumes.
